2020

The 2020 growing season started out cool & dry which resulted in a late bud break & flower bloom. The late Spring & Summer was warm & dry with cool nights. This diurnal shift resulted in very ripe fruit with fresh acidity. As harvest approached, the vines were free of disease pressure & the grapes were clean, ripe & fresh with the resulting wines showing power and balance.

Harvest dates: September 21, 2020

Vineyard:

Teaching & Demonstration Vineyard (Anthony Road)

Winemaking Notes: The fruit was machine harvested. Fermentation began on the skins. Once fermentation started, the skins and fermenting juice/wine were pressed into stainless steel. This technique is employed to coax more of the textural and savory components into the finished wine. The finished wine was moved into barrel for about 4 months before getting ready for bottling.

Bottling date: June 29, 2021

Tasting Notes: Aromas and flavors of poached pear, ginger, white pepper, celery, lime, grapefruit and almond.

Tech Data

BRIX AT HARVEST	21.6 Brix
RESIDUAL SUGAR	8 g/L
PH	3.41
TOTAL ACID	6.66 g/L
ALCOHOL	13.3%
CASES PRODUCED	20
