2021

The 2021 growing season started with a mild Winter that turned into a warm Spring. Bud break and bloom were earlier than the previous year by at least two weeks. Early Summer was warm and dry with conditions changing to warm and wet by August. As September approached, disease pressure was high and getting higher throughout the harvest. Careful attention was needed in the vineyard and in the cellar to ensure high quality

Harvest dates

October 27, 2021

Vineyard:

Martini Family Vineyard

Winemaking Notes: The fruit was crushed and destemmed into the press and left to soak on skins for 5 hours. The juice was then pressed into stainless steel tank to settle. We also drained juice from red wine ferments to build up the juice volume for the rosé while concentrating our red ferments. When the juice had settled, we racked it into stainless steel tank and large format French oak barrels for fermentation.

Bottling Date: March 30, 2022

Tasting Notes: Aromas and flavors of cherry, strawberry, watermelon, and fresh herbs.

Tech Data

| | |
|------------------------|-----------|
| BRIX AT HARVEST | 17.2 Brix |
| RESIDUAL SUGAR | 3.8 g/L |
| PH | 3.26 |
| TOTAL ACID | 6.75 g/L |
| ALCOHOL | 12.4% |
