2022

The 2022 growing season started with a cold January, that turned into a typical, average Spring for the Finger Lakes. Spring and early Summer were warm and dry, almost drought conditions, with conditions changing to warm and wet by mid-August. September saw a bit more moisture and cooler temperatures, but disease pressure was low and fruit quality was high going into the month. An early harvest, although light, brought in ripe, clean, delicious fruit.
